

FALL SPECIALS 2025

Expires 12/31/2025

Since 1918

The Cook family first became involved in the trucking industry in 1918 when Everett Cook and George Brockway decided to establish the first Brockway truck dealership in Binghamton, NY. The core values of the business that was started over 100 years ago remain in place to this day. We work hard to make sure we have the best truck parts and service available to keep our customer's trucks and equipment working. We partner with the highest quality manufacturers so that our customers can trust the products we provide will keep their vehicles on the road. We invest heavily in inventory to ensure stock is available when our customers need it – especially with recent disruptions in the supply chain. And, most importantly, our highly skilled and talented team of associates work together to make sure we deliver what our customers need when they need it. We have a passion for excellence and know that our success is only a reflection of how well we service our customers. Cook Brothers Truck Parts – “for all your truck parts needs” is not just a slogan, it's what we live by and provide our customers each and every day.

Start-All Jump Packs

StartAll JumpPack 12V 10000Amp 133200 Joules 5S

Delivering maximum START-ABILITY with more battery capacity and initial starting power! Built to last, the 10,000A, 133200S joules, 12V Start•All® Jump•Pack™ starts the toughest Class 8 engines on demand. The Jump•Pack™ is equipped with proprietary technology, which provides an instantaneous energy transfer to the battery the moment the cables are properly connected, which maximizes jump-starter performance. The Jump•Pack™ provides reliable power to get you back on the road, quickly and safely. Easily jump start a dead semi-truck, charge phones, digital cameras, tablets, laptops, and portable gaming devices with multiple power ports

G3 JP-12-10000-004T Jump Pack \$885.00

Start-All Jump-Pack® 12/24V Lithium-Ion Jump-Starter

Upgrade Your Jump-Starting Game with the All-New Start•All Jump•Pack® 12/24V Lithium-Ion Jump-Starter!

The lightweight and compact Start•All Jump•Pack® was designed with the largest and most challenging engine starts in mind. The Start•All Jump•Pack® 12/24V offers over 10,000A of starting power and 166500 joules5S of power, making it capable of jump-starting every type of vehicle and equipment, including: semi-trucks, motorhomes, coaches, buses, mining, agricultural, construction, and vocational equipment. The Start•All Jump•Pack® features portable power charging for all your smartphones, laptops, or other electronic needs.

Ice and Snow Winter Wiper Blades

TRICOHD™

Ice Wiper Blade by TRICO®. Trico® Ice™ has a specially designed, ruggedly constructed, synthetic-blended armor that is infinitely flexible and protects critical wiper components from ice and snow.

Part Number	Description	Special
TC 35-180	18" Trico Ice Winter Blade	\$7.69
TC 35-200	20" Trico Ice Winter Blade	\$7.69
TC 35-220	22" Trico Ice Winter Blade	\$7.69

TRICO Chill® winter wiper blades feature a rugged, protective rubber boot that prevents snow and ice from clogging the wiper blade. This allows the blade to maintain even pressure to provide a clean wipe and enhance driving visibility. Constructed of high-grade steel for added strength and performance you can count on.

Part Number	Description	Special
TC 37-180	18" Trico Chill Snow Blade	\$11.09

Meeting Today's Most Demanding Conditions

The PowerEdge 24PE 160 Amp alternator is engineered to survive and thrive the harsh underhood environment of heavy-duty Class 8 trucks with their extreme underhood temperatures. That's why it's the ideal choice for today's commercial vehicles.

SUPERIOR COOLING PERFORMANCE

Dual internal fans provide higher air flow within the alternator, quickly dissipating heat for lower operating temperatures

TESTED UNDER EXTREME CONDITIONS

Internal components are tested for severe thermal heat fatigue to ensure our PowerEdge alternators are superior to the competition.

WHEN SAFETY DEPENDS ON PERFORMANCE!™

72230A 20 Ton Capacity Air / Hydraulic Floor Jack

FEATURES:

Chromed ram and dust seals prevent hydraulic contamination.
Safety bypass and overload systems prevent cylinder damage and prevent the jack from being used beyond the ASME/PASE load-limiting standard.
Air pump models can also be operated manually.
Locking release lever secures handle in the vertical, 45 degree or horizontal position to lower the load on all models.

DIMENSIONS:

Low Lift Height	7.25"
High Lift Height	26.25"
Length	71.5"
Width	20.75"
Shipping Weight	670 lbs.

NJ 72230A \$4,735.00

71100A 10 Ton Capacity Air / Hydraulic Floor Jack

Features:

Chromed ram and dust seals prevent hydraulic contamination.
Safety bypass and overload systems prevent cylinder damage and prevent the jack from being used beyond the ASME/PASE load-limiting standard.
Air pump models can also be operated manually.
Includes the FASTJACK® feature which raises the jack's lifting saddle to the load with one pump of the "T" handle.

Locking release lever secures handle in the vertical, 45 degree or horizontal position to lower the load on all models.

DIMENSIONS:

Low Lift Height	6.125"
High Lift Height	27.25"
Length	68.5"
Width	21"
Shipping Weight	466 lbs.

NJ 71100A \$3,135.00

72200D 22 Ton Capacity Air Operated Hydraulic Axle Jack

FEATURES:

50" Long "T" handle helps in positioning jack under vehicles with low overhang.
The load release on the top mounted "T" handle allows operation in any handle position.
Handle locking lever secures handle in either vertical, horizontal or 45 degree position.
Compact design fits easily between tandem wheels.
Rust inhibitive coating on ram and extension screw offers longer life.
Large diameter wheels make maneuverability easy.
Self-retracting ram eliminates manual lowering of jack.
Safety bypass and overload systems prevent cylinder damage and prevent the jack from being used beyond the ASME/PASE load-limiting standard.
Integrated filter protects air motor.
Fast lifting air motor.
Three removable 2" diameter saddles with handle mounted saddle holder; 3/4", 2-1/4" and 4" in height.

DIMENSIONS:

Low Lift Height	9"
High Lift Height	22"
Stroke	4.75"
Screw Extension	4.25"
Length	20"
Width	13"
P.S.I. Range	85-145
Shipping Weight	115 lbs.

NJ 72200D \$999.00

72045 Disc Brake Hub Removal / Installer / Handler

FEATURES:

Replace rotor, seals and bearings with no heavy lifting.
Reduces lost-time injuries by preventing back and hand injuries.
Four polyurethane caster wheels to protect epoxy floors while enhancing smooth maneuverability through the shop (two caster wheels with locks).
Works on disc brake hubs for all Class 8 trucks, transit vehicles and school buses.
Attachment to the hub is made easy by using the vehicle lug nuts.
Quickly raises the load to working height using either air or battery tools.

14-1/4" range of operation.

DIMENSIONS:

Low Lift Height	11.5"
High Lift Height	25.75"
Length	24"
Width	31"
Height	35.75"
Shipping Weight	60 lbs.

NJ 72045 \$1,175.00

WHEN SAFETY DEPENDS ON PERFORMANCE!™

72040C Brake Drum Handler

FEATURES:

Reduces lost-time injuries.
Handles 15" and 16-1/2" drums.
27" handle for easy positioning during installation & removal. Especially useful in narrow bays. Rotating handle provides ease of raising and lowering drum.
8" diameter ball bearing wheels, semi-pneumatic tires and 3/4" diameter axle provide easy maneuverability and balance of drum.
Adjustable angle bracket secures both outboard and inboard mounted drums with disc wheel hubs to the drum handler's carriage.

DIMENSIONS:

Low Lift Height	10.25"
High Lift Height	15.25"
Length	62.5"

NJ 72040C \$399.00

72000E 1 1/2 Ton Capacity Truck Transmission Jack

FEATURES:

Wide chassis with open front provides:
- Wider opening for saddle and transmission to come lower to the ground for easy removal.
- Efficient load distribution and stability.
- Easy access to saddle tilt knobs.
Fully adjustable universal saddle with adjustable arms to position the transmission.
Heavy duty chain with convenient chain tensioner secures load to the saddle.
Safety overload system prevents jack from being used beyond the ASME/PASE load-limiting standard.
Full 360 degree rotating handle operates in any position.
Flash chromed ram inhibits rust from entering the hydraulic system.
Four 4" diameter full-swivel ball bearing caster wheels for easy positioning.

DIMENSIONS:

NJ 72000E \$1,962.00

72701A 1 Ton Capacity Under Hoist Air / Hydraulic Truck Transmission Jack

FEATURES:

Air/hydraulic foot pump provides hands free operation and easy convenient lifting.
Metered pump valve provides safe lowering of load.
Fully adjustable universal saddle with adjustable arms to position the transmission.
Safety overload system prevents jack from being used beyond the ASME/PASE load-limiting standard.
Heavy duty chain with convenient chain tensioner secures load to saddle.
2" diameter, flash chromed, single stage ram provides added stability throughout the entire lift range.
Wide base with four 3-7/8" diameter heavy duty swivel ball bearing caster wheels provides stability and easy maneuvering.

DIMENSIONS:

Low Lift Height	41.25"
High Lift Height	69.375"
Base Dimensions	37.5" x 38"
Shipping Weight	273 lbs.

NJ 72701A \$2,418.00

72700A 1 Ton Capacity Under Hoist Truck Transmission Jack

FEATURES:

Fully adjustable universal saddle with adjustable corner brackets and safety chain.
Safety overload system prevents jack from being used beyond the ASME/PASE load-limiting standard.
2" diameter, flash chromed, single stage ram provides added stability throughout the entire lift range.
Foot operated pump and lowering pedals allow use of both hands to position and align saddle with transmission.
Wide base with four 3-7/8" diameter heavy duty swivel ball bearing caster wheels provides stability and easy maneuvering.

DIMENSIONS:

Low Lift Height	45.75"
High Lift Height	74.25"
Base Dimensions	38" x 38"
Shipping Weight	292 lbs.

Bostrom[®]

S E A T I N G

For those long hours on the road, the Patriot Series offers a wide platform seat with plenty of room to sit comfortably. Its Flex Support Cushion System reduces cushion compression, providing you with more support to drive longer. The Patriot's scissor action suspension has superior weight distribution, giving you a more stable driving platform. Additionally, Bostrom's patented ParaBar II manual lumbar offers a continuous range of adjustment. The Patriot's two piece seat feature maximizes your investment by providing easy access to the suspension and future replacement of the back cushion. Don't tolerate discomfort, drive for miles enjoying Bostrom's Patriot Series seat.

NATIONAL

SEATING[®]

The Captain series is built on the top-selling truck seat platform which is known for its ergonomic comfort and low cost of ownership. With the right combination of adjustments such as air lumbar and rear cushion tilt, the Captain is ideal for most general trucking applications. Featuring the 'chugger-snubber' seat isolator, the Captain series truck seat will keep you and your truck moving allowing you to focus on getting the load to where it needs to go. The 95 air suspension with 6" of vertical travel delivers comfortable buffering from road vibration and is suitable for class 7-8 Heavy trucks.

Get Your Engine Protected With the Correct Antifreeze Final Charge OAT

Nitrite Free Antifreeze

FINAL CHARGE® Global Full Strength Extended Life Coolant/Antifreeze is an Organic Acid Technology (OAT), globally formulated, ethylene glycol-based coolant, which uses organic acid inhibitors (non-2-EH) to provide guaranteed protection for all cooling system metals. With proper maintenance,† Final Charge Global Extended Life Coolant/Antifreeze delivers guaranteed cooling system protection for ONE MILLION MILES of on-road use (8 years or 20,000 hours of off-road use) without the use of Supplemental Coolant Additives (SCAs). Final Charge Global Extended Life Coolant/Antifreeze is nitrite-free, phosphate-free, silicate-free, and borate-free.

Part Number	Container Size	Sale Qty 1-5	6 or More Cases Price Ea
OW FXAB53	Case 6/1 Gallon Size	\$9.19	\$8.83
OW FXAB51	Drum 55 Gallon	\$483.00	

Final Charge POAT Nitrite Free Antifreeze

FINAL CHARGE® PRO-SERIES 50/50 Prediluted Antifreeze/Coolant is an advanced technology formula engineered to deliver the highest level of performance for today's heavy duty engines. Its stabilized Phosphate enhanced Organic Acid Technology (POAT) corrosion inhibitor system provides fast-acting, long-lasting protection to all cooling system metals including Controlled Atmosphere Brazed (CAB) and cast aluminum components. Scale-fighting inhibitors help prevent deposit formation to maximize heat transfer. FINAL CHARGE® PRO-SERIES Antifreeze/Coolant is free of nitrite and 2-ethylhexanoic acid and is compatible with all system gaskets and hose materials. With proper maintenance†, FINAL CHARGE® PRO-SERIES Antifreeze/Coolant delivers guaranteed cooling system protection for 1.5 million miles, 10 years, or 36,000 hours, whichever comes first, without the use of Supplemental Coolant Additives (SCAs).

OW FPRB53	Case 6/1 Gallon Size	\$9.19	\$8.83
OW FPRB51	Drum 55 Gallon	\$483.00	

Fleet Charge 50/50 SCA Antifreeze

FLEET CHARGE® SCA Precharged 50/50 Prediluted Antifreeze + Coolant is a Fully Formulated, ethylene glycol-based coolant, precharged with advanced technology Supplemental Coolant Additives (SCAs). Because it is SCA precharged, FLEET CHARGE® SCA Precharged Antifreeze + Coolant requires no SCAs at initial fill and ensures proper chemistry at every top-off. FLEET CHARGE® SCA Precharged Antifreeze + Coolant uses a low silicate and phosphate-free formulation.

Part Number	Container Size	Sale Qty 1-5	6 or More Cases Price Ea
OW FCAB53	Case 6/1 Gallon Size	\$6.53	\$6.28
OW FCAB51	Drum 55 Gallon	\$350.00	

Full Force Heavy Duty Antifreeze

FULL FORCE® Conventional Green Antifreeze + Coolant is the low-silicate formulation for use in older cars and light to medium-duty truck applications, as well as heavy-duty diesel engines with the use of supplemental coolant additives (SCAs). With a complete cooling system flush and fill, it will provide rust and corrosion protection to all cooling system metals for up to 2 years/50,000 miles*, and is compatible with all other conventional low-silicate formulations.

KleenDEF Diesel Exhaust Fluid is a mixture of 32.5% high purity synthetic urea and 67.5% deionized water that is used in Selective Catalytic Reduction(SCR) systems on diesel engines. DEF is the primary ingredient used to help convert NOx to harmless nitrogen and water.

BlueDEF PLATINUM®

Part Number	Container Size	Sale Qty 1-5	Sales Qty 6 or More
OW DEG002	2.5 Gallon	\$18.50	\$17.25

BlueDEF PLATINUM® with Advanced **SYSTEM SHIELD™** Technology is a groundbreaking premium Diesel Exhaust Fluid with a proprietary formula to tackle deposits that can build up in the SCR system. Through continual use, BlueDEF PLATINUM® with Advance **SYSTEM SHIELD™** Technology reduces future deposits that build up in your diesel exhaust system. These deposits create back pressure which can increase fuel consumption and reduce engine power. Once residue collects, it cannot be removed and over time can lead to the costly replacement of your SCR system.

Windshield Washer Fluid

-20 Degree

PEAK® DE-ICER WINDSHIELD WASH is a formulation that melts frost, light ice and snow providing you with increased visibility in brutal weather down to -20°F. PEAK® DE-ICER windshield wash offers streak-free cleaning and is safe to use in any vehicle.

SynSure 2 Synthetic Gear Oil

SynSure 2™ synthetic lubricants are transportation industry-oriented gear oils which focus on the critical needs of heavy-duty truck transmissions and differentials. SynSure 2™ provides superior lubricant protection in the most severe service, including sub-arctic to desert conditions. SynSure 2™ is ideal for use in truck transmissions and axles operating in standard drain service or in "out-of-warranty" situations. SynSure 2™ out-performs conventional gear lubricants to promote longer gear life and better equipment operating economy.

Reliant Heavy Duty Engine Oil

Reliant™ is a new generation of diesel engine protection. Advances in diesel engine technology have escalated significantly from what existed a decade ago. Today's engines are substantially more powerful and efficient than once imagined. Changes made to achieve this have created more severe operating conditions that place new levels and types of stress on the engine oil. In response to this, the lubricant industry has adopted new performance standards, designated as API CK-4. Engine oils meeting this new standard must deliver increased levels of engine protection and oil durability that meet the needs of new engine designs while simultaneously providing a higher degree of protection for older model engines. Equipment manufacturers are adopting elevated standards at the same time to meet the specific needs of their engine designs.

Heavy Duty Vehicle Commercial Lubrication Products

Manufactured by **D-A** LUBRICANTS COMPANY

SAE 40

Part Number	Packaging	Price
CB14688LB	Pro Drive 2 SAE 40 35 lbs Pail	\$167.12
CB14698LB	Pro Drive 2 SAE 30 35 lbs Pail	\$162.43

PRODRIVE 2™

D-A ProDrive 2™ full synthetic transmission fluids are designed for fuel efficiency, extended drain intervals and severe service in heavy duty commercial vehicle transmissions. This non-EP lubricant provides excellent resistance to wear, temperature extremes and corrosion. ProDrive 2™ is recommended for heavy-duty manual and automated manual transmission seeking to extend lubricant service life and transmission drain intervals.

Part Number	Packaging	Price
CB54568	5-Gallon Plastic Pail	\$135.13
CB54562	55-Gallon Drum	\$1,459.66

GearTec Advanced EP Gear Oil

GearTec™ is designed to support the performance requirements for the lubrication needs of gear trains and differentials requiring the use of an extreme pressure lubricant, including limited-slip type configurations. This product is formulated with quality base oils and carefully selected additives resulting in a product which will provide excellent anti-wear protection under heavy loads while also guarding against rust and corrosion even when the system is idle. Special inhibitors are also present which limit oil oxidation and deposit formation even at high operating temperatures.

Part Number	Packaging	Price
CB12517T	Cartridge	\$4.67
CB12519	35lb. Metal Pail	\$174.63
CB12516	120lb. Keg	\$584.00

ProLith General Purpose Lithium Grease #2

ProLith™ No. 2 is a general purpose lithium grease formulated for excellent mobility and pumping ease in centralized lubrication systems. Offers better low temperature grease delivery to critical lubrication points than most No. 1 grades. The red color makes this grease easy to identify during application and operation. The combination of EP (extreme pressure) additives and a stable soap structure results in a high-quality grease capable of protecting heavily loaded machinery, while remaining in place.

Part Number	Packaging	Price
CB14608LB	5-Gallon Plastic Pail	\$159.03
CB14606LB	16-Gallon Quarter Drum	\$538.13

SynSure 2 Synthetic Transmission Fluid SAE 50

SynSure 2™ SAE 50 is a heavy-duty manual transmission lubricant containing all synthetic components to extend lubricant service life and transmission drain intervals. Superior lubricating and frictional characteristics improve fuel mileage and give better operating performance when used in manual transmissions. Provides excellent performance over a wide temperature range including sub-zero service, promoting smoother, easier shifting. The additive package provides corrosion protection and is safe for bronze, copper and steel components.

AutoTrans Super Plus Automatic Transmission Fluid

AutoTrans Super Plus™ is a fully synthetic high viscosity automatic transmission fluid that supports the performance requirements in a vast majority of today's automatic transmissions, including Allison, Volvo, ZF, and many others. It is suitable for severe service applications (up to 50,000 miles) and for extended drain intervals in normal service applications (up to 100,000 miles). It offers excellent corrosion resistance to all types of metals used in transmissions and hydraulic systems, plus provides superior friction retention, thermal and oxidation stability. It can be used in a broad variety of multi-vehicle applications found in on and off highway service as well as marine and industrial applications.

Part Number	Packaging	Price
CB55108	5-Gallon Plastic Pail	\$83.27
CB55102	55-Gallon Drum	\$890.35

PresurFlo™ AW Hydraulic Fluid ISO 46

PresurFlo™ hydraulic fluid is designed for all modern high-pressure hydraulic power systems used in construction equipment and stationary industrial installations. These oils are formulated with an optimum level of anti-wear additive for maximum protection against scuffing and wear in hydraulic pumps and motors. Extensive testing has shown these oils exhibit excellent resistance to foaming and oxidation and have excellent anti-rust properties.

Part Number	Packaging	Price
CB57518	5-Gallon Plastic Pail	\$89.08
CB57512	55-Gallon Drum	\$953.43

HydraTrans 100 Transmission /Hydraulic Fluid

HydraTrans 100™ is a transmission, hydraulic and wet brake system fluid providing excellent performance for severe service agricultural equipment applications. It is formulated from high-quality base stocks fortified with a high-performance additive system to extend component life and improve performance characteristics. HydraTrans 100™ is designed as an agricultural product only, supporting the performance requirements of JDM J20C spec.

Diesel Fuel Supplement +Cetane Boost prevents fuel gelling and protects against fuel-filter icing.

Diesel Fuel Supplement +Cetane Boost is a winterizer/antigel that is used in the cold winter months to prevent fuel gelling and keep fuel-filters from plugging with ice and wax. When temperatures drop, paraffin (wax) in ULSD fuel will gel stopping fuel from flowing through the engine, and water in the fuel can freeze on the facings of fuel-filters, blocking fuel flow. It provides trouble-free winter operation for diesel fuel.

PART #	Container Size	Treat Ratio	UNITS PER CASE	Fall Special	Fall Special 10 Case

Diesel 911 Winter Emergency Product

Diesel 911 is a winter emergency use product. This Winter Rescue Formula relieves gelled fuel and de-ices frozen fuel-filters to restore the flow of diesel fuel to an engine. Diesel 911 does not prevent fuel gelling – use [Diesel Fuel Supplement +Cetane Boost](#) (in the white bottle) as a preventive measure to keep fuel from gelling. Diesel 911 and Diesel Fuel Supplement +Cetane Boost are compatible in diesel fuel and may be used at the same time.

Diesel Kleen + Cetane Boost

Diesel Kleen +Cetane Boost is a total injector cleaner and performance improver that cleans injectors, boosts cetane and lubricates fuel injection components. To realize the benefits of today's cleaner-burning fuels, new technology is required to maximize performance. It restores lost power and fuel economy and smooths rough-running engines. Diesel Kleen can be used year-round, but it is not a diesel fuel winterizer or antigel. When winter temperatures drop below + 30°F. use Diesel Fuel Supplement +Cetane Boost (in the white bottle) to provide maximum winter protection for your diesel engine.

Clear-Diesel Fuel and Tank Cleaner

Clear-Diesel Fuel & Tank Cleaner is an advanced diesel fuel and tank cleaning technology. Water has always been a problem in diesel fuel. But today's cleaner-burning fuels have dramatically reduced sulfur content and are more prone to water separation, contamination and are inherently unstable. This Fuel Polishing Formula removes water and slime, disperses fuel contaminants and stabilizes fuel during long-term storage.

PART #	Description	UNITS PER Case	Fall Special
09226-12	26OZ PLASTIC	12	\$10.89
09264-06	64 OZ PLASTIC	6	\$22.69

Bio-Kleen Diesel Fuel Biocide

Bio Kleen Diesel Fuel Biocide kills microbes in diesel fuel. The dramatically reduced sulfur content in today's cleaner burning fuels has created ideal opportunities for microbes to grow in fuel tanks. The first indication of microbial contamination is mucous-like accumulations on fuel-filters and increased requirements for fuel-filter replacement. The only way to get rid of microbial contamination is to kill the microbes with a biocide.

PART #	Description	UNITS PER Case	Fall Special
09016-09	16 OZ PLASTIC	9	\$31.09
09128-04	128 OZ Plastic	4	\$205.34

DPF Injector & DPF Flush

Diesel Injector & DPF Flush™ is a fast-acting, single-tank flush that cleans the entire fuel system including injectors, the diesel particulate filter (DPF), turbo and EGR. Formulated to be used monthly or as needed, this complete fuel system flush removes injector deposits and reduces emissions and soot build-up in the DPF. It decreases the frequency and duration of both active and passive diesel regens and minimizes forced regens that lead to costly downtime.

END YOKE IDENTIFICATION

TECH TIPS

STEP 1: ID END YOKE/U-JOINT TYPE

RESULT _____

	Full Round	Half Round	Spicer SPL	Meritor RPL
End Yoke				
U-joint				
End Yoke Side	Two caps have plates retained by two 3/8-24 bolts.	Two caps retained by stamped steel straps with 12 point bolts.	Caps retained by cast straps and 12 point bolts.	Wing caps retained by 12 point bolts.
Driveshaft Side	Two caps have plates retained by two 3/8-24 bolts.	Two caps have plates retained by two 3/8-24 bolts.	140/170/250 caps retained by spring tab and two 5/16 hex bolts. 350 caps retained by snap rings.	Round caps retained by snap rings.

STEP 2: ID U-JOINT SERIES

RESULT _____

	Full Round	Half Round	Spicer SPL	Meritor RPL
How to Measure	Outside to outside of the end yoke ears.	Inside to inside of the end yoke nubs that capture the U-joint caps.		
	1610 Series Cap Diam. 1.875" Outside-Outside Ear Dim. 5.312"	1610 Series Cap Diam. 1.875" Inside-Inside Nub Dim. 5.312"	SPL 140 Cap Diam. 1.938" Inside-Inside Nub Dim. 5.457"	RPL 20 Round Cap Diam. 2.060" Inside-Inside Nub Dim. 7.060"
	1710 Series Cap Diam. 1.938" Outside-Outside Ear Dim. 6.094"	1710 Series Cap Diam. 1.938" Inside-Inside Nub Dim. 6.094"	SPL 170 Cap Diam. 2.166" Inside-Inside Nub Dim. 6.456"	RPL 25 Round Cap Diam. 2.060" Inside-Inside Nub Dim. 8.380"
	1760 Series Cap Diam. 1.938" Outside-Outside Ear Dim. 7.000"	1760 Series Cap Diam. 1.938" Inside-Inside Nub Dim. 7.000"	SPL 250 Cap Diam. 2.362" Inside-Inside Nub Dim. 6.412"	 DRIVELINE SERVICES
	1810 Series Cap Diam. 1.938" Outside-Outside Ear Dim. 7.547"	1810 Series Cap Diam. 1.938" Inside-Inside Nub Dim. 7.547"	SPL 350 Cap Diam. 2.559" Inside-Inside Nub Dim. 6.772"	

STEP 3: MEASURE

Measurement	How to Measure	Result
Spine Count	Count the number of splines.	
Spline Diameter	Measure down in between the splines, straight across. The largest distance possible.	
Hub/Seal Diameter	Measure the outside diameter of the hub where the seal rides.	
Length through the Hole	With the yoke on a table, with the ears pointing up, measure from where the Nut/Washer hits the yoke down to the table.	
Center to End	With the yoke on a table with the ears pointing up, measure from the table up to where the center of the U-joint cap would be.	
Counter Bored	Is the spline counter bored on the hub end?	Yes / No
• Counter Bore Depth	If yes, measure how deep the spline is machined out from the end of the yoke.	
Deflector	Does your yoke have a metal or plastic shield pressed on the yoke, on the hub end?	Yes / No
• Deflector Diameter	If yes, what is the outside diameter of the deflector shield?
